

From Paper to Production: Ricoh Document Scanners + DocuWare Streamline Manufacturing Workflows

Ricoh Document Scanners and DocuWare offer a powerful solution for manufacturing. Together, they simplify the digitization and automation of production records, compliance documentation, and supplier communications, helping teams stay organized and efficient.

With the **PaperStream Capture Pro (PSCP)** integration for DocuWare, Ricoh scanners deliver fast, accurate capture while enabling seamless routing of documents into secure workflows. This integration accelerates approvals, enhances data accessibility, and improves overall document management from scan to storage.

Once your data is captured, DocuWare's cloud-based document management and workflow automation software securely stores, accesses, and processes critical information, helping you automate key operations, streamline approvals, and keep production running smoothly.

Key Capabilities

One-button scanning from Ricoh devices or PSCP UI

API integration with DocuWare trays and cabinets

Advanced scan profiles for image enhancement and metadata tagging

Multi-station architecture for distributed scanning and indexing

Secure & compliant document storage and access

Manufacturing Use Cases

1.

Quality control documentation: Scan inspection sheets and compliance forms with accurate indexing for audit readiness.

2.

Supplier invoice processing: Digitize and route invoices for automated approval workflows.

3.

Production records archiving: Organize batch sheets and maintenance logs by job number or product line.

4.

Risk management & traceability: Digitize OSHA and ISO documents for secure, searchable storage.

5.

Engineering change management: Scan and tag change orders and CAD drawings for version control.

Why It Matters

Manufacturing environments are paper-heavy and time-sensitive. Ricoh + DocuWare + PSCP reduces manual errors, speeds access to critical documents, enhances collaboration, and supports compliance and operational transparency.

Find the perfect scanner for your business needs

fi-8170

- Popular, fast, double-sided scanning of up to 70 pages per minute
- Intelligent paper protection, no more paper jams
- Multi-feed detection so everything is captured clearly
- 100-page automatic document feeder

[Learn More](#)

fi-8040

- Scan up to 40 pages per minute, with stand-out features, and intuitive touchscreen
- Perfect for shared environments, use seamlessly across multiple users
- Easy to operate
- 50-sheet automatic document feeder
