

Onramp to a Connected Ecosystem

PaperStream Capture Pro amplifies your workflows by scanning to the most common destinations. From pre-built components to our established partner network, our platform unifies technology, streamlines workflows and enables seamless information distribution.

Key Benefits

Connect

Connect to key destinations and workflows to scale business processes

Integrate

Gain peace of mind around data transfer with programmatic integration

Optimize

Optimize and expand the power of your PaperStream ecosystem

Smarter Document Workflows Start Here

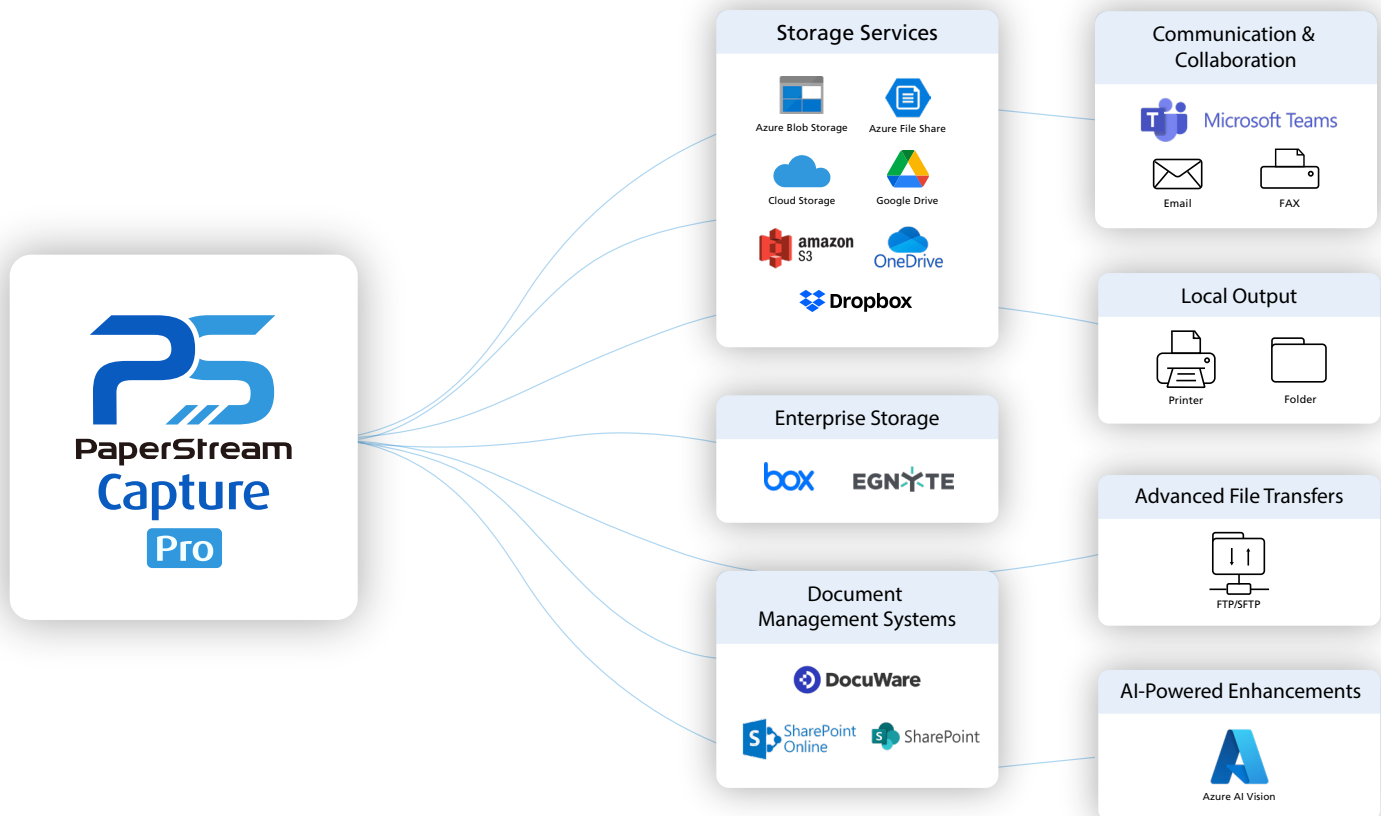

Get your data where you need it, more easily. Make PaperStream Capture Pro your success hub.

Danger lurks in the shadows. Help safeguard proprietary data with secure transfer and no shadow copies.

Consolidate your capture workflows for greater efficiency and oversight.

Take Control of Time and Labor Costs.

Skip the folder and scan directly into your apps, costing you less to connect business processes.

Safeguard Data Transmission.

Automate workflows with data extraction and indexing to cloud and local storage.

Future-Proof Your AI Roadmap.

Optimize business continuity with integrations that support AI-driven goals and scalable growth.

Pre-Built Integrations

Match our pre-built integrations with your technology stack.

Scan and upload to the following destinations:

	SFTP
	FTP

	SharePoint
	SharePoint Online

	Email via Attachment
	Folder (Local + Network)

	Printer
	Connector to Other Apps

Document Storage Destinations

Say goodbye to disconnected data. Scan to storage services to make your information easily accessible and actionable, supporting your AI strategy now and in the future:

Box® is a registered trademark of Box, Inc., and/or its affiliates in the United States and other countries. Google Drive is a trademark of Google Inc. Microsoft, Azure, and OneDrive, are trademarks of the Microsoft group of companies.

Additional Integrations

Amazon S3

Directly scan to any region/bucket/subfolder.
