

Simple, network compatible scanner
for everyday use

SP-1130Ne Image Scanner

The SP-1130Ne is a plug and play, TWAIN compatible scanner that provides high-value performance, perfect for home offices and small businesses. It scans 30 ppm / 60 ipm and holds 50 sheets in the ADF, making it a great option for various batch sizes.

Safe and reliable scanning

The Ricoh SP-1130Ne provides all of the functions required to digitize, save and share any paper-based document through simplified operability, reliable feeding and clean image production. The SP-1130Ne comes with a brake roller assembly to deliver accurate page separation and prevent any multi-feeding errors from occurring. This mechanism, along with ultrasonic multi-feed sensors, provides users with stable paper feeding, prevents any potential information loss from occurring, and enables scanning of all documents and cards with maximized precision and efficiency.

PaperStream ClickScan simplifies scanning

PaperStream ClickScan software is ideal for document scanning thanks to its easy-to-use interface. With only three easy steps, the simplified user experience means the user is scanning in minutes, with no additional software required.

Software for ultimate business efficiency

PaperStream IP (PSIP) is a TWAIN®-compliant driver that cleans up and optimizes scanned images without any advance settings. PSIP features:

- Auto Color Detection to automatically identify the best color mode for the document
- Auto Deskew to automatically correct skewed images
- Blank Page Detection to automatically detect and remove blank pages
- Front and Back Merge to place two sides of a page into one convenient image

Flexible and easy operation to improve daily workflow

High-speed USB 3.2 and a wired network connection expand the versatility of user operation so that users are no longer confined to tethering the device to the computer. Operation is now possible in a wider variety of locations, with reliable network environment support. The SP-1130Ne is also compact in size, making it the perfect scanner to use on a desk or reception space where space is limited. This hybrid model allows for a simple, push-scan from the front panel, for intuitive use.

¹ Actual scanning speeds are affected by data transmission and software processing times. ² Indicated speeds are from using JPEG compression. ³ Indicated speeds are from using TIFF/CTTT Group 4 compression. ⁴ Selectable maximum density may vary depending on the length of the scanned document. ⁵ Limitations may apply to the size of documents that can be scanned, depending on system environment, when scanning at high resolution (over 600 dpi). ⁶ Capable of scanning documents with dimensions exceeding that of Legal sizes. Resolutions are limited to 300 dpi or less when scanning documents sized 355.6 mm (14 in.) to 863 mm (34 in.). Resolutions are limited to 200 dpi or less when scanning document sizes that are greater than or equal to 863 mm (34 in.) in length. ⁷ Thicknesses of up to 127 to 209 g/m² (34 to 56 lb) can be scanned for A8 (52 x 74 mm / 2.1 x 2.9 in.) sizes. ⁸ 85C7810 ID-1 type compliant. Capable of scanning embossed cards with total thicknesses of 1.24 mm (0.049 in.) or less. ⁹ Maximum capacity depends on paper weight and may vary. ¹⁰ Capable of setting additional documents while scanning. ¹¹ Numbers are calculated using scanning speeds and typical hours of scanner use, and are not meant to guarantee daily volume or unit durability. ¹² Scanning speeds slow down when using USB 1.1. ¹³ When using USB, device must be connected to the USB hub connected to the PC port. If using USB 3.2 Gen 1x1 (USB 3.0) / USB 2.0, USB port and hub compatibility is required. ¹⁴ Excludes the ADF paper chute and stacker. ¹⁵ Functions equivalent to those offered by PaperStream IP may not be available with the WIA Driver. ¹⁶ Bundled software only includes driver support for MacOS.
