

Please review these items to ensure an optimal software configuration experience.

|                          | Prerequisite Item                                                                                                                                                                                                                                                                                                 |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> | Request a specific PAI representative – Indicate if you prefer a specific specialist for configuration, especially if you’ve worked with them before. This is optional, all representatives are fully qualified.                                                                                                  |
| <input type="checkbox"/> | Does your PC meet the minimum installation requirements?<br>Check the NX Manager Installation Guide (QR Code)                                                                                                                  |
| <input type="checkbox"/> | NX Manager installation requires PC administrative rights. Contact your system administrator for access.                                                                                                                                                                                                          |
| <input type="checkbox"/> | Optional: Complete purchase of additional integration software.                                                                                                                                                                                                                                                   |
| <input type="checkbox"/> | Scanner installed and operational. The scanner must be installed before the software installation.                                                                                                                                                                                                                |
| <input type="checkbox"/> | Confirmation of Backend System – NX Manager has integrations with several backend content management and cloud software platforms. If you would like us to help you configure the connection to those systems, please make sure to have the appropriate username, password, and administrator settings available. |
| <input type="checkbox"/> | Please note: Configuration includes up to 8 hours of professional services. If necessary, additional hours will be billed separately on an as-needed basis.                                                                                                                                                       |
